## 19" HEAVY DUTY EQUIPMENT RACKS

### DESCRIPTION

The Jands Touring range of rugged 19 inch (483mm) equipment racks are designed for heavy duty applications, such as touring use, where the structural stability of the rack is a paramount consideration.

### FEATURES

- \* Rack chassis and strips constructed from 1.2mm zinc seal sheets
- \* Sheets are punched and folded under computer control for complete accuracy
- \* Rack exhibits no signs of stress even when fully loaded
- \* Universal rack mount
- \* Durable and attractive gannet (matt grey) powdercoat finish specifically formulated for this application
- \* Available in two standard heights
- \* Fully welded construction

### OVERALL SPECIFICATIONS

Material: Chassis - 1.2mm zinc seal steel  
 Strips - 1.2mm x 2 zinc seal steel (double thickness)

Finish: Gannet powdercoat

Dimensions:

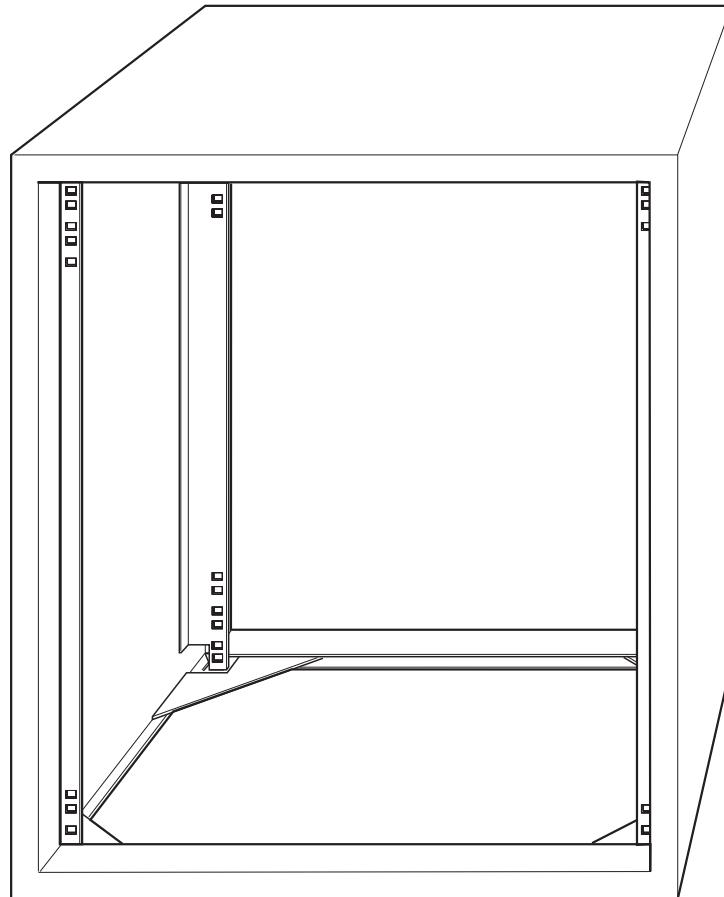

TYPE	EXTERNAL(mm)	INTERNAL(mm)
• 10 RU	500(H)×535(W)×545(D)	450(H)×485(W)×470(D)
• 13 RU	635(H)×535(W)×470(D)	585(H)×485(W)×394(D)

Net/shipping weight:

TYPE	NET(kg)	SHIPPING(kg)
• 10 RU	11.4	13.2
• 13 RU	11.6	13.5

### ORDERING INFORMATION

TYPE	PART No.
• 10 RU enclosed 19" equipment rack	JND 1601
• 13 RU enclosed 19" equipment rack	JND 1602
• M6 cage nuts #8 (per 50)	JND-1558
• M6 x 16mm black pozi button head bolts (per 50)	JND-1559
• M6 black nylon flat washers (per 100)	JND-1550
• M6 black steel washers (per 100)	JND-1551
• Professional rack mounting bolts (per 100)	JND-1560
Comprises: - M6 x 20mm stainless steel button head Allen bolts - M6 stainless steel and M6 white nylon flat washers	
• Custom finishes	On request

## 19" HEAVY DUTY EQUIPMENT RACKS

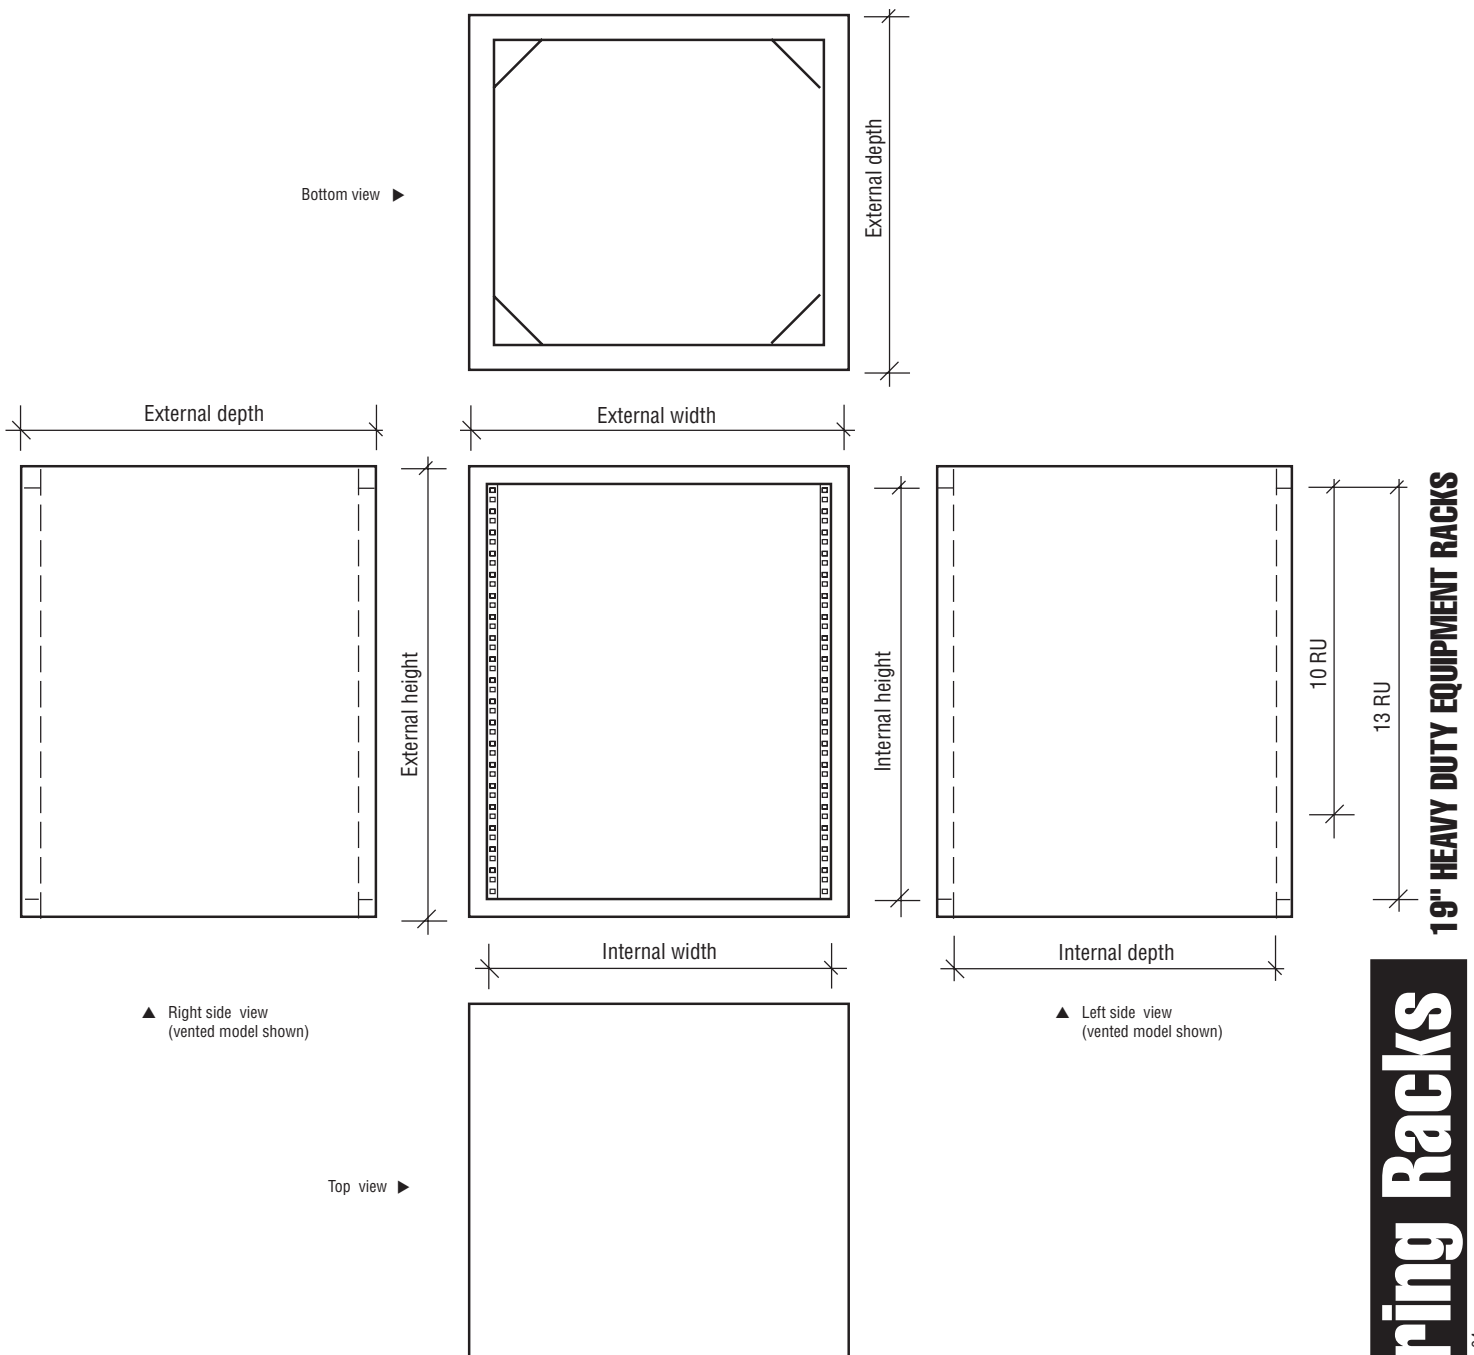

### ARCHITECTS AND ENGINEERS SPECIFICATION

The rack chassis and strips shall be constructed from 1.2mm zinc seal sheets. The sheets are to be punched and folded under computer control for complete accuracy. The rack shall exhibit no signs of stress even when fully loaded. The rack is to be finished in a durable gannet (matt grey) powdercoat finish specifically formulated for this application.

**Sizes of the rack are to be as follows:**

**External height** 500mm (10RU); 635mm (13RU)

**External width** 535mm (all types)  
**External depth** 545mm (10RU); 470mm (13RU)  
**Internal height** 450mm (10RU); 585mm (13RU)  
**Internal width** 19"/483mm standard (all types)  
**Internal depth** 470mm (10RU); 394mm (13RU) (Internal depth measurement quoted are taken from the front of the front rail to the rear of the rear rail).
