Use **Shure mics** to record, based on the EQ Bars of your recordings.

## NOT JUST A CONTEST, BUT ALSO A GAME!

This online recording competition aims at encouraging music lovers to use Shure newly introduced USB microphones to compose and record any audio files.

Rather than just a music contest, "Sing-a-City" is also an online game. According to different heights of the equalizer bars of each audio file, virtual buildings of different heights are generated, resulting in a unique individual "city".

To learn more, visit [www.sing-a-city.com](http://www.sing-a-city.com) now and sing your own city!

The PG27 and PG42 are available with USB or XLR output.
