

Vista T4/T2/I3

Control Consoles

TBJLT125.doc

Date: 8 September 2008

Support for Keyboards Other Than US English

Application

This Tech note describes the procedure to be followed to enable the use of keyboards other than "US English" to be used with the Vista T4, T2, and I3 consoles.

Parts Required

Jands Vista Linux update package 1.12.4984 or later. If the console does not already have this or a later software version installed, it must be installed prior to commencement.

Procedure

1. Boot up the console as normal.
2. Press **CTRL + ALT + F4** to open the maintenance screen.
3. Type **select-xkb[enter]** .
4. Navigate through the options using the cursor buttons.
5. Press the TAB button to select OK.
6. Press Enter.
7. Repeat steps 3 to 5 as required.

The console must be restarted for the changes to take effect.
